

The Masonry Institute

On behalf of the Masonry Institute, I would like to introduce myself, the Director, Joyce Greer. We have enjoyed a renewed growth in our association and this is due to the strong efforts of many talented and dedicated people of our industry. I am personally dedicated to continued efforts to grow our association and make membership worthwhile by providing great venues, learning, networking and promotion of our industry. Last year we devised our Strategic Plan and have committee's assigned to put these plans to action. They are: Vocational Training, Architectural Education, Market Share Measurement, Association Collaboration and Networking. We feel strongly that by implementing these initiatives we will positively impact our industry.

We would like to invite you to visit our website, www.masonryinstitute.us. This site is constantly being updated and providing valuable links to assist all who are involved in our industry. As a trade association we welcome all who have an interest in learning and promoting our industry. Come join, share your knowledge, grow and learn with us as we face many challenges in our future. We have a wonderful group of members now and encourage all to come join our "Team".

"The Masonry Institute has enjoyed a long and proud history of promoting masonry in the Washington Metropolitan area. We have always filled a unique niche in our industry as it is the only organization representative of the associate supplier, the manufacturer and most importantly the masonry contractor."

- Mr. Charles Tiches, MI President
